

Lifting Magnet Spare

AN ISO 9001 : 2015 Certified Company

Equipping Steel Industry
at all Levels

LIFTING MAGNET

Lawatherm is known for providing most appropriate magnetic material handling insulation spare solutions to various industry segments. We specialize in magnet systems for the scrap, steel and railroad industries. What has made us successful is our service to the customer and the well thought out design and quality of our systems. You demand maximum performance, durability and long life. We'll keep you up and running! Whether you are new to magnet systems or a long time user, Lawa is here for you! Experience counts and we've got it! Take a look at what we have to offer and give us a call. We'll set you up with what's right for you. We are your magnetic material handling specialists!

Application	Conductor Insulation	Deck Separator	Core Insulation	Coil leads
Product	PSA Mica Tape 	Mica Washer 	Mica Paper 	Mica Sheet 
Composition	silicone bonded glass-backed mica taps	machined, thick mica plate in micapaper or micapaper or flake	micapaper glass backed or without backing	silicone bonded mica flake flexible
Properties	high temperature resin rich, highly flexible tape which huges the conductor	low thermal conductivity prevent heat build-up in coll; compressive strength	heat barrier	highly stable at high voltages

Coil Core (copper/aluminium)
 LAWATHERM using of Copper/Aluminium strips are highest grade of copper/aluminium that is sourced from the reliable and trusted mfg co

Dimension Details:-	Thickness: 1mm (min)-10mm Width: 1mm-20mm
Conductivity :-	Above 97% IACS min in Half Hard Above 99.95% in annealed
Purity :-	Copper/aluminium - 99%
Specifications (OFC):-	Copper/aluminium : 99.99%, O2: <10ppm Copper/aluminium : 99.95%, O2: <10ppm
Supply Condition:-	coils

Lifting Magnet Repair

Lawatherm does Lifting Magnet Division repair & rewinding of lifting magnets of both copper & aluminium of all brands as well as the manufacturing of new. We understand the importance of getting your magnet back up and running in optimal condition in order to minimize downtime. We offer exceptional repair services for all brands magnets.
